MOTION FOR NEW TRIAL IS GRANTED

JUDGE AVERILL HANDS DOWN A VERY INTERESTING OPINION

Judge Averill yesterday granted a motion for a new trial in the case of P. D. McLeod vs. Eugene E. Bertam. This was an action in which the plaintiff, a physician, failed to record his certificate from the state board of medical examiners with the county recorder. He sued the defendant for recovery of a fee for medical attention and recovered in the first action. In rendering his opinion Judge Averill quotes from a decision which reads: "It is a settled principle of law that one cannot recover compensation for doing an act to do which is forbidden by law, and is a misdemeanor." In Nevada it is a misdemeanor to practice in a county without first recording the certificate from the board of medical examiners, but it is not specifically forbidden, Judge Averill in his opinion went in extenso into the laws of the state governing the practice of medicine, surgery and obstetrics. He says: "As I view it, one who practices without a license is doing an act considered to be unlawful. He is guilty of a misdemeanor and his practice, being unlawful, has no legal standing at all. The law commands a man to record his license and punishes him if he does not, in the event anyone cares to prosecute."

SILVER PICK CON. IS AGAIN SINKING

SHAFT TO BE SENT DOWN TO THE LATITE-SHALE CONTACT

In accordance with a program decided upon by President Herman Zadig of San Francisco upon the occasion of his visit to Goldfield about two weeks ago, General Superintendent Walter S. Norris this morning resumed sinking operations in the main shaft on the property of the Silver Pick Consolidated Mines company beneath the 500-foot level, with the famous latite-shale contact as the objective point, says the Goldfield Tribune. The plans of the company call for an additional depth of 200 feet, but it is expected that the contact will be revealed at a lesser depth.

The property is amply equipped with machinery for deeper operations and the work should make excellent headway. All lateral development work on the 500-foot level has been suspended during sinking operations, with the exception of the west crosscut, which is designed to intercept the downward continuation of three unknown veins. This crosscut is at present a total length of 420 feet, the face being 330 feet from the footwall of the main vein of the property.

President Zadig stated while in Goldfield on his last visit that the results obtained in the exploratory work on the 500-foot level had convinced him that greater depth was required on the various ore bodies revealed and that it would be advisable to sink the main shaft to the latite-shale contact. An assessment of one cent per share recently levied by the directors has provided ample funds to continue the shaft to the 700-foot point and permit of extensive additional exploratory work.

MAKING AN INSPECTION OF THE BUCKEYE MINE

Prof. C. C. Beebe and wife are here from Racine, Wisconsin, and are guests at the Mizpah. Prof. Beebe is one of the heavy stockholders in the Buckeye mine and is today making an inspection of the property. He is greatly pleased with the work that has been done and favors even deeper development of the property, which is at the eastern limit of the proven ore zone.

BABY GIRL ARRIVES

An eight-pound baby girl arrived last night at the home of Mr. and Mrs. Arthur Splers. Mr. Splers is electrician in chief for the West End and Halifax companies. He got his wires badly twisted this morning and didn't know a kilowatt from an ampere, but he whistled blithely as he toiled and none of his superior officers had the heart to rebuke him.

ILL AT SAN DIEGO

A. A. Wager, the pioneer ranchman of Hot Creek, who left here to attend the two California expositions, is seriously ill in a hospital at San Diego, being threatened with pneumonia. Tom Dugan of Tonopah is with him and is seeing that he gets the best of care.

OFFICERS ELECTED BY WOMEN'S CLUB

HOME ECONOMICS AND SANITATION WILL BE STUDIED BY ORGANIZATION

The Tonopah Woman's club held its annual election of officers in the guild room of the Presbyterian church. The following officers were elected for 1915: President, Mrs. Roy Davenport; first vice-president, Mrs. J. E. McNamara; second vice-president, Mrs. J. J. Fenley; secretary-treasurer, Mrs. Lloyd Horton; corresponding secretary, Mrs. Chas. Mullen.

On behalf of the club, Mrs. McNamara presented the retiring president, Mrs. R. Q. McDonald, with a silver sugar basket, a token of the club's appreciation of her year of faithful and active service.

It was decided to devote the next several months to a study of home economics and sanitation.

CANAL EMPLOYEES TO BE GIVEN MEDALS

WAR OFFICE PLANS TO GIVE REWARDS TO FAITHFUL WORKERS

(By Associated Press.) PANAMA, Feb. 9.—Canal service medals are to be awarded Panama canal employees in the course of the next few weeks. Orders have just been received from the war office that the list of those who are entitled to medals and service bars must be in Washington not later than February 8.

It is estimated that this year 700 employees will be entitled to medals, while more than 1,000 service bars will be given to those who have received medals already. Up to December, 1913, more than 7,000 service medals had been given canal employees.

The medal is popularly known as the Panama canal service medal, but is also called the Roosevelt canal medal, as it was at President Roosevelt's suggestion, made in 1908 while on a visit to the isthmus, that the idea of a medal was adopted. The medal is given at the end of two years' service, after which a service bar is attached for every two additional years.

AMERICANS IN GERMANY NOT STRICTLY NEUTRAL

CHARGED WITH BEING CORRESPONDENTS OF NEWSPAPERS IN LONDON

(By Associated Press.) AMSTERDAM, Feb. 9.—The Hamburger Nachrichten complains that Americans in Germany are acting as the representatives of London newspapers, this being viewed by the Nachrichten as hardly in accord with strict ideas of neutrality. The Nachrichten says:

"Every war between civilized nations is initiated by the rupture of diplomatic relations. Newspaper representatives in many respects resemble diplomats, for their task is to obtain information, and to give their own country a true insight into the existing state of affairs. Can we take it as in the slightest degree possible that those London journals which are showing the greatest hatred toward Germany can still be maintaining their correspondents lying low in Berlin? Of course not. They are Americans! Thus they enjoy the protection of their embassy; and even if they place their telegraphic reports before the German censor, naturally whatever they send their editors through the American post-bag goes through unexamined."

REBEKAH CARD PARTY

Desert Queen Rebekah lodge will give a card party and dance Tuesday evening, Feb. 16th. All are invited. F9-16

DR. TURNER was called over from Goldfield today on a consultation case.

FRANK REYNOLDS, who is employed in the Belmont mill, is critically ill with pneumonia.

India Now Purchaser of Silver Bullion

(Continued from Page 1)

crops, and the presence of German gunboats in Asiatic waters was a restraining influence not only in crop exportation, but the importation of contrabands, of which silver is one. In fact, one lot of 300,000 ounces of silver from the Belmont mines sold in San Francisco for India delivery was removed from the boat at Honolulu. Consequently the recent purchases of silver by India indicate that there is a more hopeful feeling in that country as to England's mastery of the seas.

Although Belmont can produce and sell silver at 48 cents an ounce and realize a substantial profit, nevertheless the management feels that sales at this price are made at a sacrifice. But even at 48 cents an ounce, the market is limited and has been unable to digest large offerings. For weeks the quotations were little more than nominal. It is roughly estimated that about 45 per cent of the world's silver production is consumed in the arts, but at present this consumption is reported as only 20 per cent of normal. Manufacture of flat silver has been hard hit by the war. Producing as it does about 250,000 ounces of silver a month, a difference of a cent in the price means a substantial sum to Belmont. Each advance of one cent means \$3,500 more to the company, or more than \$100 a day. Silver sold at a low price, that is a figure which is regarded as well below a normal quotation, means the practical loss of large sums by silver producers, which can never be regained.

BURGLAR INJURES HIMSELF WHILE FORCING ENTRY

The police are holding a suspect for the robbery of the West End saloon. His hand was cut and there was a protruding nail at the door of the saloon that might have inflicted just such a wound. But when his cabin was searched the plunder was not found. Chief Evans is after other suspects.
